

To support the implementation of Erin's Law (passed in WV in 2018 – HB4402), the body safety curriculum "**Be the Boss of Your Body**" was developed. The curriculum lessons support specific prevention strategies that educate and empower children in grades K-4 to build skills to help keep them safe from situations that could lead to sexual abuse.

The curriculum consists of 9 detailed lessons that include stories, activities, and coloring pages that teach about personal space, respectful and safe relationships, feelings, and emotions.

To access the body safety curriculum, you must complete the online training module **and** attend live booster session(s):

- Create an account in the Sexual Assault Services Training Academy (SASTA) [here](#).
- Go to Special Topics and select Body Safety Education K-12.
- Go to Module 2, "Be the Boss of Your Body," and watch the recorded training.
- Complete the Learning Check questions.
- Attend live booster session(s) for additional body safety education training.

IMPORTANT NOTE:

Individuals who receive certificates for both the online training module and the live booster session(s) will receive a hard copy of the Facilitator's Guide, Coloring Books for each student receiving "**Be the Boss of Your Body**" lessons (based on supply), and the storybooks referenced in the curriculum.

Booster Session 2 will be August 29th from 9 - 11 A.M. Register for that [here](#).
